Entries in photo challenge (75) The birthday boy has been a social butterfly this week and been very

active. On Monday, we had an impromptu birthday party at the park. It was really fun to have a mini circus in the park with the birthday boy as the clown. He ate snacks, drank soda, watched a play, rode his bicycle and even attempted to show off his newly-learned fire tricks. On Tuesday, we had an impromptu birthday party at the park again. This time, however, the birthday boy did not consume any snacks and had only a little soda. He was much more interested in being very active by playing in

the sand and running around. He also took his first steps on his own. He did not need any assistance for either of these activities. On Wednesday, it was my turn to plan the birthday party. Although we've been doing this for two years now, it still is a lot of fun. We bought snacks and drinks and made some homemade pizza. The birthday boy and his friends had a great time eating and playing together. And when it was time to eat pizza, he had a little something on his own plate. We also had a big salad bar

for him. On Thursday, my brother took us to a local park for a birthday party. The birthday boy and his friends had a great time playing together and were really active. We gave them each a mini camera and they had a lot of fun taking pictures. They also learned how to take pictures of themselves and each other. On Friday, we had a family party at my uncle's house.

We had a cake made by a professional. The birthday boy blew out the candles and had a huge smile on his face. It has been

a wonderful week full of birthdays
and family and friends. We can't
wait to celebrate another
